

# California Experimental Rice Report

## 2007 Crop Year

Reporting Organization/Firm: \_\_\_\_\_

Date: \_\_\_\_\_

### Research Information:

1. Location

Two options exist for providing location of the research plot. Please choose one and complete the following:

Option #1

A. All counties in which research is conducted \_\_\_\_\_

B. California Crop Improvement Association, a third party agency, will maintain the specific location of the research plot.  Yes  No

Option #2

A. Specific location(s) \_\_\_\_\_

2. Describe nature of research (conventional, hybrid, transgenic, colored bran, etc.) \_\_\_\_\_.

A. Is the event that is the focus of the research currently regulated by USDA? \_\_\_\_\_.

B. If regulated, please provide a copy of the design protocols for compliance with USDA requirements. If not regulated, please provide the information required in paragraph 4 below.

3. Acreage (in aggregate or by type if aggregate exceeds 50 ac.) \_\_\_\_\_

4. Proposed procedures for planting, producing, harvesting, transporting, drying, storing, or otherwise handling rice to ensure that research will not result in commercial impacts to other rice. Please attach procedures. If design protocols are provided pursuant to paragraph 2 above no additional information is required here.

5. Proposed procedures to ensure that the introduced rice is free of disease, weeds, or other pests, if the rice is brought in from another state, or country. Please attach procedures.

Note: Plantings of any type in excess of 50 acres are considered to be commercial production and are subject to review by the advisory board for the potential of commercial impact.

If your organization does not conduct research on rice:

- I hereby declare that my organization/firm will not conduct research on rice in the 2007 crop year.
- I hereby declare that my organization is engaged in research conducted under the auspices of the University of California.
